DETAILED ACTION

This office action is in response to the election, with amendment, filed November 28, 2006. In accordance with the amendment, claims 2 and 6 have been amended. Claims 1-3 and 5-21 are pending.

Election/Restrictions

1. Applicant's election with traverse of the two groups in the reply filed on November 28, 2006 is acknowledged. The traversal is on the grounds that no burden exists between the groups. This traversal is moot due to the amendment to independent claims 2 and 6, which add the patentably distinct limitation of Group I into Group II. In accordance with this amendment, the Examiner has rejoined claims 2, 6, 13, 14, and 19. The restriction requirement has been withdrawn.

Allowable Subject Matter

2. Claims 1-3 and 5-21 are allowed. The following is an examiner's statement of reasons for allowance: the relevant prior art of record (Yong '384; Wu et al. '877) does not teach or reasonably suggest, *in combination* and further in view of the previous claim amendment, the limitation in which "said mirror array and said first mirror *are disposed on* collimator side compared to where said collimator array and said optical fiber are coupled in a longitudinal direction of said collimator array, and said second mirror *is disposed on* said optical fiber side compared to where said collimator array and said optical fiber array are coupled". For example, see Applicant's Figures 1, 3, and 4.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

3. Applicant's arguments, see RCE amendment with arguments, filed August 21, 2006, with respect to claim amendments adding particular limitations, have been fully considered and are persuasive. The rejections of Yong '384 and Wu et al. '877 have been withdrawn.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: PTO-892 form references A and B.
